THIS IS UNEVALUATED INFORMATION

- 25X1 1. The administrations, designing offices and plants in East Germany and East Berlin were notified some time ago that they may no longer correspond directly with the German Standards Committee (Deutscher Normenausschuss) (DNA) and its Branch Office East. In January 1954, the East German Ministry for Machine Construction again issued this directive in its official publications. In addition, the administrations, designing offices and factories were informed of the new directive by the appropriate main administrations of the Ministry for Machine Construction in a special letter.
- 25X1 2. The State Planning Commission, ZAPT Standardization, has recently evinced strong interest in the sessions of the International Standards Organization (ISO). It recently ordered the Branch Office East of the DNA to procure background information on the session of the ISO TC 10/SC 1 (Drafts) which is to take place at the Hague from 21 to 24 April 1954, because East Germany is to be represented in the German Committee which will attend the session. It is not yet known who will represent East Germany at the meeting.
